

Testimonial for Stacey Miller Consultancy

Eastleigh Youth Conference

Eastleigh Borough Council's annual Youth Conference has been running since 2008 and has become an integral part of the Council's work designed to support young people to adopt healthy lifestyles and develop mental and emotional resilience. Stacey Miller has coordinated the last nine youth conferences of which have covered a range of topics such as internet safety, drugs, alcohol, relationships, sexual health and mental health. The conference aim is to raise awareness of students from secondary schools and colleges in the Eastleigh district and encourage them to disseminate key messages to their peers when back at school. Popular actions have included leading assemblies and school based promotional campaigns.

Stacey's professionalism, expertise, knowledge and coordination skills have proved invaluable in the planning and implementation of this annual event. She has ensured that every conference has been well attended, often by every school and college in the Borough and, has engaged with and built positive relationships with a wide range of partner agencies who have provided their support year on year. Feedback from both the young people and agencies involved has always been positive.

With the above in mind I would have no hesitation in recommending Stacey to others seeking to commission the organisation and delivery of a high quality conference. We would be more than happy to work with Stacey again on future events and projects.
